

Helen Seabury

My son started at Edmondsley Primary School in September 2020. He had not attended Edmondsley Nursery so I was new to the school. I was keen to learn more about the school and participate more in the school community; hopeful of simultaneously making a valid contribution.

I have worked in several different job roles since earning my degree in Sports Science, including working as a HR Business & Systems Analyst. I also worked abroad in India in an advisory capacity.

I enjoy being outdoors, exploring new places and once backpacked around the world on my own.

In my spare time I help out at the local Scouts / Cub group my son attends.
